Subject: Handyman/Contractor

Our last newsletter requested information about handymen and contractors to potentially list in our directory. I have worked with a contractor, Daniel Tanner, on several projects. He completely remodeled my master bath last year and my kitchen 4 years ago. He also did all the installation of the tin ceiling in my home (which you saw). I purchased 2 duplexes in Lake Worth in December of 2014 and he did (or subcontracted) all of the work including new roof, central air installation, all new plumbing and electrical, refinishing terrazzo floors, cabinets and countertops, crown molding, and new doors and window throughout, He will tackle some smaller handyman items when schedule permits and he has the manpower. You may reach him at Project and Property, LLC, Daniel Tanner. 561-908-1235.

Thanks
